

Sector Risk Assessments Uncover industry potential

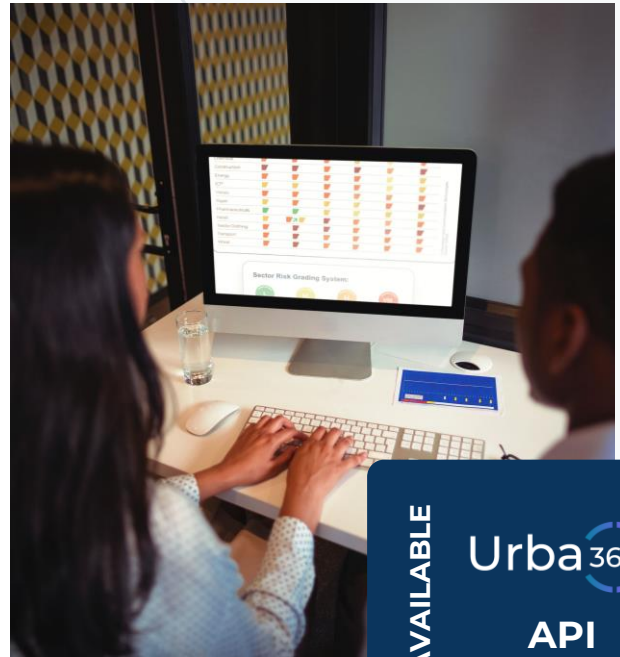

The Sector Risk Assessment helps you to evaluate sector risk and customise strategies for stability and growth.

- › Enable proactive risk mitigation by staying ahead of sector changes.
- › It assesses how interconnected sectors and countries are to evaluate a sector's regional and local risks.

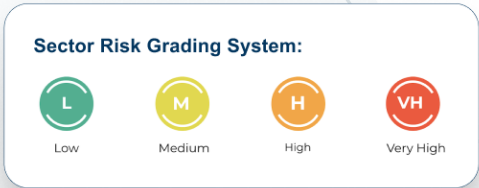

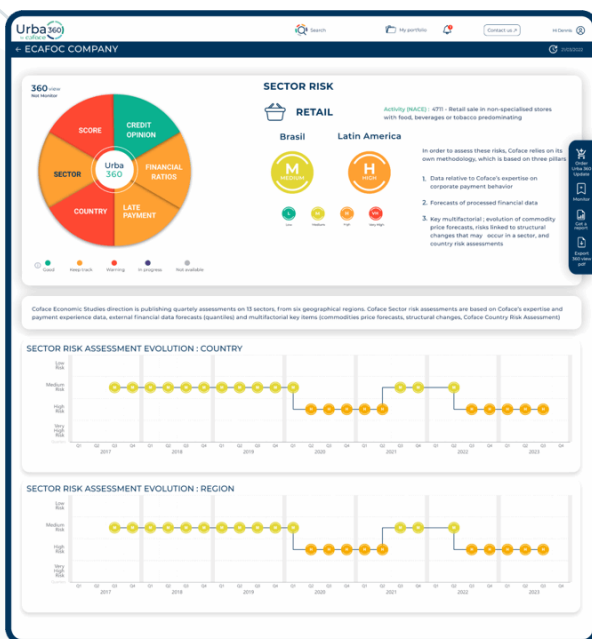

How is the Sector Risk Assessment calculated?

The methodology leverages Coface's extensive data and expertise across three critical pillars, culminating in a strategic 4-tier grading system.

- › The components of Sector Risk Assessment are sector analysis, risk grading and periodic insights
